Executive Summary

Project title

Bradford City Health Federation
“Non-Valvular Atrial Fibrillation Quality Improvement program (NVAFQIP)”

Project partners

Bradford City Health Federation
Daiichi Sankyo UK Ltd

Start date

March 2018

Project summary

Bradford City Health Federation - “Non-Valvular Atrial Fibrillation Quality Improvement program (NVAFQIP)”

Bradford City Health Federation and Daiichi Sankyo UK Ltd have entered into a joint working project entitled the “Non-Valvular Atrial Fibrillation Quality Improvement program (NVAFQIP)”

The overarching aim of this project is to improve the diagnosis rate and prevalence of NVAF and improve the clinical management of new and existing NVAF in primary care. Hence improving the morbidity and mortality of this cohort of NVAF patients via a reduction in Stroke and MI rates in AF patients, a reduction in Emergency and Elective Admissions in NVAF and unexpected preventable deaths from AF and an improved quality of life for patients across the Bradford City area.

Expected benefits to patients, the NHS and Bradford City Health

This is a particular issue for Bradford City CCG area as the prevalence rates are well below the national average and there is a significant group of undiagnosed NVAF patients in the population and varying quality of clinical management across the practices in Bradford. This will save the NHS considerable sums of money by the prevention of NVAF related Strokes and MI.
